# This Week in Severn Class...

This week, Severn Class have been exploring different types of fastenings in Design and Technology as part of our project to make our own textile book covers. We investigated a range of fastenings including buttons, zips, Velcro, and press studs, thinking carefully about how easy they are to use and how securely they'd keep the cover closed. We also thought about a variety of materials such as felt, cotton, and leather to decide which would be durable yet flexible enough for our designs. Next week, we will be going through the process of designing our own book cover, making sure we have all the necessary elements prepared before we start making them.
